

Q8. Which of the following best expresses your view of the proposed Bill? (please note this is a compulsory question)

Fully supportive

**Please explain the reasons for your response.**

I would support a more proactive strategy to intervene and support those who are at risk of overdose. Treatment services have not been sufficiently funded to make a difference and a more radical approach is to be welcomed. With sufficient safeguards.

Q9. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

My understanding is that a pilot has been carried out already. Legislation would probably be necessary to override current Uk laws but I'm not too well informed at the moment.
