Your Views On The Proposal

Q8. Which of the following best expresses your view of the proposed Bill? (please note this is a compulsory question)

Fully supportive

Please explain the reasons for your response.

Safe injecting rooms are required urgently to save lives. They work very well in many countries around the world and allow individuals who use them to gain support and access to harm reduction services.

Q9. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

These safe injection rooms should be set up urgently as pilots. Discussion could continue in parallel regarding legalities.

Q10. Which of the following best expresses your view of the proposal to establish overdose prevention centres?

Fully supportive

Please explain the reasons for your response.

These facilities save lives.

Q11. Which of the following best expresses your view of the proposal for a licensing regime to enable the establishment of overdose prevention centres?

Fully supportive

Please provide reasons for your response, including on the proposed conditions for licensing (see pages 12 to 14 of the consultation document) and on the proposal that health and social care partnerships are responsible for licensing and scrutinising OPCs?

This is a public health concern. Health and social care are well able to support safe consumption areas.

Q12. Which of the following best expresses your view of the proposal for a new body, the Scottish Drugs Deaths Council?

Partially supportive

Financial Implications

Q13. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

some increase in costs

Please explain the reasons for your answer, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.

Initially some increased costs but overall in time a reduction in costs for A&E depts.

Equalities

Q14. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

Safe consumption rooms would support individuals from all aspects of society. Less mobile individuals may require additional more flexible solutions.

Sustainability

Q15. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? If you do not have a view then skip to next question.

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

A reduction in crime and support towards recovery and reduced substance use for individuals and communities would benefit all society.
